IMPORTANT INFORMATION ABOUT PROCEDURES FOR OPENING A NEW ACCOUNT

To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account.

What this means for you: When you open an account, we will ask you for your name, address, date of birth and other information that will allow us to identify you. We may also ask to see your driver’s license or other identifying documents.

▶ Regulation GG – Unlawful Internet Gambling Enforcement Act of 2006 Notice

In accordance with the requirements of the Unlawful Internet Gambling Enforcement Act of 2006 and Regulation GG, this notice is to inform you that restricted transactions are prohibited from being processed through your account or relationship with our institution. Restricted transactions are transactions in which a person accepts credit, funds, instruments or other proceeds from another person in connection with unlawful Internet gambling.

If you sign the signature card or open or continue to use the account, under Penalties of Perjury, you agree that the accounts in any variation of this name or any “doing business as” name attached to your organization are not being used in connection to unlawful Internet gambling of any kind. Further, you agree to notify Wayne Savings Community Bank in writing immediately if any of your accounts are used in connection with such activities in the future.

▶ International ACH Transactions

The Bank will abide by ACH rules governing the handling of International ACH Transactions (IATs) as described in the following scenarios:

- Outgoing – The Bank does not originate its own IATs or IATs on behalf of our originating customers.
- Incoming – IAT funds shall not be made available to the customer until a successful screening and approval process has been performed.

▶ Funds Availability Policy

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash and we will use the funds to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays and federal holidays. If you make a deposit before **2PM** on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after **2PM** or on a day we are not open, we will consider that the deposit was made on the next business day we are open. Please note that our Madison South branch located at 2024 Millersburg Rd., Wooster, Ohio is closed on Wednesdays.

Longer Delays May Apply

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type and amount of the check that you deposit, funds may not be available until the second business day after the day of your deposit. The first \$200 of your deposit, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than \$5,000 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the sixth business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits into your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first \$5,000 of a day's total deposits of cashier's, certified, teller's, traveler's, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over \$5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than U.S. Treasury check) is not made in person to one of our employees, the first \$5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the **ninth** business day after the day of your deposit.

Deposits at Automated Teller Machines

Final credit of all deposits made by you at a terminal is subject to verification by us of the actual amounts deposited and paid (including conversion rates for foreign currencies) notwithstanding the figure shown on the receipt you received at the time of deposit.

Funds from any deposits (cash or checks) made at automatic teller machines (ATMs) will not be available until the second business day after the day of your deposit. The first \$200 of your deposit, however, may be available on the first business day. Longer delays may apply (see section above).

▶ Substitute Check Policy Disclosure

Rights for substitute checks are reserved for consumer accounts only. *For business accounts*, our practice is to follow the procedures described below, but we are not legally required to do so.

IMPORTANT INFORMATION ABOUT YOUR CHECKING ACCOUNT **Substitute Checks and Your Rights**

What is a substitute check?

To make check processing faster, federal law permits banks to replace original checks with "substitute checks." These checks are similar in size to original checks with a slightly reduced image of the front and back of the original check. The front of a substitute check states: "This is a legal copy of your check. You can use it the same way you would use the original check." You may use a substitute check as proof of payment just like the original check.

Some or all of the checks that you receive back from us may be substitute checks. This notice describes rights you have when you receive substitute checks from us. The rights in this notice do not apply to original checks or to electronic debits to your account. However, you have rights under other law with respect to those transactions.

What are my rights regarding substitute checks?

In certain cases, federal law provides a special procedure that allows you to request a refund for losses you suffer if a substitute check is posted to your account (for example, if you think that we withdrew the wrong amount from your account or that we withdrew money from your account more than once for the same check). The losses you may attempt to recover under this procedure may include the amount that was withdrawn from your account and service charges (fees) that were charged as a result of the withdrawal (for example, bounced check service charge [fees]).

The amount of your refund under this procedure is limited to the amount of your loss or the amount of the substitute check, whichever is less. You also are entitled to interest on the amount of your refund if your account is an interest-bearing account. If your loss exceeds the amount of the substitute check, you may be able to recover additional amounts under other law.

If you use this procedure, you may receive up to \$2,500 of your refund (plus interest if your account earns interest) within 10 business days after we received your claim and the remainder of your refund (plus interest if your account earns interest) not later than 45 calendar days after we received your claim.

We may reverse the refund (including any interest on the refund) if we later are able to demonstrate that the substitute check was correctly posted to your account.

How do I make a claim for a refund?

If you believe that you have suffered a loss relating to a substitute check that you received and that was posted to your account, please contact us at: **Wayne Savings Community Bank 151 N. Market St., Wooster, OH 44691 800-414-1103**

You must contact us within 40 calendar days of the date that we mailed (or otherwise delivered by a means to which you agreed) the substitute check in question or the account statement showing that the substitute check was posted to your account, whichever is later. We will extend this time period if you were not able to make a timely claim because of extraordinary circumstances.

Your claim must include -

- A description of why you have suffered a loss (for example, you think the amount withdrawn was incorrect);
- An estimate of the amount of your loss;
- An explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
- A copy of the substitute check or the following information to help us identify the substitute check: the check number, the name of the person to whom you wrote the check, the amount of the check.

▶ Item Processing Policies (Payment Order of Items)

We may pay items (checks, orders and electronic transactions) in any order. Items may not be processed in the order in which they occurred. The order in which we receive a transaction and process it can affect the total amount of overdraft service charges incurred by you. There is no order that is more favorable in every instance.

Our policy is to pay checks and orders drawn on your account in numerical sequence (we pay lower numbered checks and orders first). For electronic transactions, we post credits first, then debits, which are paid lowest dollar to highest dollar.

We encourage you to avoid creating items without sufficient funds and incurring the resulting charges (fees).
